## SUMMARY

AI specialist with 9+ years across software engineering, client operations, education and founder support. I work in three lanes, community and member support, AI workflows, and part-time AI training. For God Crew I built **9 pipeline systems and one founder dashboard** that save the founder **20 to 30 hours a month** and track a **$1.47M CAD pipeline**. At CampK12 I held **90%+ client retention** for 3 years, and I have mentored **1,200+ students** across schools, colleges and professional programmes.

## PROFESSIONAL EXPERIENCE

**AI Specialist, independent** Feb 2026 - Present

CosmikWork (my registered practice, Udyam) | Remote from Kolkata | Workflow, pipeline and outreach systems for early-stage founders

**God Crew (Toronto), Chief of Staff to Founder, Growth Systems and Automation** Feb 2026 - Present

24/7 biohazard and trauma scene cleanup company | Remote

- Joined a team of one developer and one salesperson with a payments-only dashboard, mapped the growth process end to end and built **9 pipeline systems feeding one sales dashboard**, ideated with the founder and run by me.
- Replaced **20 to 30 hours a month** of the founder's manual number-checking with that dashboard, which tracks **2,314 prospects across 924 companies and $1,471,100 CAD in pipeline**, built within 90 days.
- Kept the pipelines booking **60+ qualified calls a month**, prospected **100+ influencer leads** and onboarded the top 12 as affiliates, and ran a direct mail campaign to **1,579 GTA households**.
- Wrote **9 SOPs** so every workflow runs without depending on one person.

**Navgurukul Foundation, Placement Outreach Manager** Mar 2026 - Apr 2026

Nonprofit for underserved learners | Remote | 45-day placement drive, reporting to the CxO

- Designed the outreach workflow and tracker, trained 3 interns to run it, and reached **2,093 companies with 4,200 open roles**.
- Signed **31 hiring partners against a target of 25 (124%)**, taking each conversation through to a signed partnership.

**Vokido, Growth Consultant, Partner Channels** Sep 2026

AI spoken-English app for kids | Remote | One-month fixed-term agreement

- Designed the partner onboarding workflow and commission model for pan-India partner centres.

**Fellow Leader, Math and Computer (Grades 5-12)** Apr 2024 - Mar 2026

Teach For India (education nonprofit) | Kolkata | KECT Academy, St. Patrick's Day School (Dhapa)

- Introduced an AI-assisted lesson prep workflow that **cut teacher prep time by 40%** across Math and Computer studies.
- Ran a repeatable assess, track and intervene cycle for **500+ students** in two schools (80 taught daily), lifting average class assessment scores by **20%**.
- Engaged **300+ parents and staff** through structured progress updates and managed CSR partner Axis Max Life Insurance.

**Client Relations and College Talent Manager** Mar 2020 - Apr 2023

CampK12 (US-based online coding and AI education startup) | India / US / UK / UAE / Australia (Remote)

- Automated instructor outreach, **cutting manual outreach effort by 30%**, and standardised the recruit, onboard and match process for a **400+ instructor workforce**, 99% of them college students.
- Matched instructors to each client's needs across India, US, UK, UAE and Australia accounts, holding **90%+ client retention for 3 years**, including saving a dissatisfied US customer's year-long subscription with a bilingual English-Spanish instructor.

**Senior Software Engineering Analyst** Apr 2015 - Apr 2019

Accenture | Chennai and Hyderabad

- Built **Python automation frameworks** for clients including UCI Hospital and Bank of America, **reducing post-deployment defects by 15%**.
- Bridged US, UAE and European clients with engineering teams, and onboarded clients directly in the final 1.5 years.

## COMMUNITY AND TRAINING
