# SOUMIK CHATTERJEE

**AI Workflow Specialist | Process Mapping, Automation and AI Tools | Claude, n8n, Make**

soumik2808@gmail.com | +91 84202 70119 | Kolkata, India | Open to relocation and remote | https://cosmik.work | https://www.linkedin.com/in/soumikgrows | https://github.com/pymikofficial

## SUMMARY

AI workflow specialist with 9+ years across software engineering, client operations and founder support. In every role I hit the core targets and also turn repeated manual work into systems that keep running, then hand them over with SOPs. At God's Cleaning Crew I built **9 pipeline systems and one founder dashboard** that save the founder **20 to 30 hours a month** and track a **$1.47M CAD pipeline**. At CampK12 automation cut manual outreach by **30%**, and at Accenture my Python automation frameworks cut post-deployment defects by **15%**. I have shipped **14 live AI tools**, including two Chrome extensions with 300+ users.

## PROFESSIONAL EXPERIENCE

**Chief of Staff to Founder, Growth Systems and Automation** Feb 2026 - Oct 2026
God's Cleaning Crew (Toronto) | 24/7 biohazard and trauma scene cleanup | Remote

- Joined a team of one developer and one salesperson with a payments-only dashboard, mapped the growth process end to end and built **9 pipeline systems feeding one sales dashboard**, ideated with the founder and orchestrated by me.
- Replaced **20 to 30 hours a month** of the founder's manual number-checking with that dashboard, which tracks **2,314 prospects** across **924 companies** and **$1,471,100 CAD** in pipeline, built within 90 days.
- Kept the pipelines booking **60+ qualified calls a month** (about 15 a week), prospected **100+ influencer leads** and onboarded the top 12 as affiliates, and ran a direct mail campaign to **1,579 GTA households** with a landing page I built into the main codebase.
- Wrote **9 SOPs** so every workflow runs without depending on one person. Tools used were Claude, Claude Code, Apollo.io, VS Code and GitHub.

**Fellow Leader, Math and Computer (Grades 5-12)** Apr 2024 - Mar 2026
Teach For India (education nonprofit) | Kolkata | KECT Academy, St. Patrick's Day School (Dhapa)

- Introduced an AI-assisted lesson prep workflow that **cut teacher prep time by 40%** across Math and Computer studies.
- Ran a repeatable assess, track and intervene cycle for **500+ students** in two schools (80 taught daily), lifting average class assessment scores by **20%**.
- Engaged **300+ parents and staff** through structured progress updates and managed CSR partner Axis Max Life Insurance.

**Client Relations and College Talent Manager** Mar 2020 - Apr 2023
CampK12 (US-based online coding and AI education startup) | India / US / UAE (Remote)

- Automated instructor outreach, **cutting manual outreach effort by 30%**, and standardised the recruit, onboard and match process for a **400+ instructor workforce**, 99% of them college students.
- Matched instructors to each client's needs across US, UAE and India accounts, holding **90%+ client retention for 3 years**, including saving a dissatisfied US customer's year-long subscription with a bilingual English-Spanish instructor.

**Senior Software Engineering Analyst** Apr 2015 - Apr 2019
Accenture | Chennai and Hyderabad

- Built **Python automation frameworks** for clients including UCI Hospital and Bank of America, **reducing post-deployment defects by 15%**.
- Bridged US, UAE and European clients with engineering teams, and in the final 1.5 years onboarded clients directly, turning an early-friction Netherlands client into one of the team's most profitable accounts.

## CONSULTING AND INDEPENDENT WORK

**Placement Outreach Manager** Mar 2026 - Apr 2026
Navgurukul Foundation (nonprofit for underserved learners) | Remote | 45-day placement drive, reporting to the CxO

- Designed the hiring-partner outreach workflow and tracker from scratch and trained 3 interns to run it, reaching **2,093 companies** with **4,200 open roles** and shortlisting 65 relevant JDs.
- Signed **31 hiring partners against a target of 25 (124%)**, taking each employer conversation through to a signed partnership.

**Growth Consultant, Partner Channels** Sep 2026
Vokido (AI spoken-English app for kids) | Remote | One-month fixed-term agreement

- Designed the partner onboarding workflow and commission model for pan-India partner centres for a UK-based founder.

**Teaching Assistant, Oxford Induction Programme** Sep 2026 - Present
Simplilearn (online professional education) | Remote | One-year contract

**Independent AI/ML Trainer** 2016 - Present
College students | Online and offline | Parallel practice

- Mentored **500+ college students** in Computer Science and AI/ML coursework, projects and placement readiness.

## SHIPPED AI TOOLS

**14 live tools** built solo with the Claude API, including **Process Mapper** (call transcript in, process map with gaps out), **SOP Generator**, **Meeting Minutes Extractor**, **Executive Briefing Generator** and **Automation Priority Sorter**. **Blur Background** and **Full Webpage Screenshot** are on the Chrome Web Store with 300+ users. All at https://cosmik.work/shipped

## SKILLS AND TOOLS

**Workflow** process mapping, workflow design and testing, automation, AI prompt and tool design, KPI dashboards, SOPs and handover, CRM pipelines, outbound prospecting, client retention
**Tools** Claude, Claude Code, Claude API, n8n, Make.com, Python, Apollo, Clay, GoHighLevel, Google Workspace, Slack, VS Code, GitHub, Netlify

## EDUCATION

B.Tech, Computer Science, CIEM (WBUT), 2014 | PG Certificate, Data Science and Engineering, Great Lakes Institute of Management, 2020
